

St. Cloud Christian School Spalt Park Playground Project

Through a partnership with the City of St. Cloud, SCCS is updating and renovating the park across the street from the school! This will allow us to use the park for regular school use and bless the community around us with an NEW upgraded playground and multi-use grass recreation area!

Most importantly, this partnership will then free up the necessary space behind the school to add much needed classrooms, parking, and NEW GYM!

The park project will cost the school Just over \$84,000 and will help pave the way to allow more kids and families in Central MN to have a quality Christ centered education for decades to come. Your generous gift helps us accomplish this goal!

Help us build the new playground!

Playground Set Project Cost

Playground:	\$102,998
Ground surface:	\$5620
Private Grant:	\$-47,348
Pool removal:	\$16,000

Total Project: \$84,134

- Renovate and upgrade current playground area keeping current set of swings.
- Remove pool and plant grass for a multi-use open recreation area.
- Upgrade sidewalk when its time and add rounded corners to make it a walk/run path.
- Add crosswalk signage or retractable road closure barricades for school use and safety.
